

01-intro

为什么要上这门课

2

DBMS developers are in demand and there are many challenging unsolved problems in data management and processing.

2

确实dbms很火爆，现在国内形势下很多公司都要自己更生。Dell等外企估计会受到影响

他提到DBMS developers do not have to work in the context of DBMS。灵活性也挺高

If you are good enough to write code for a DBMS, then you can write code on almost anything else.
